973-900-0179 | harrytttd@gmail.com | aryehharris.com | Clifton, NJ

**Github:** github.com/harrytttd | **LinkedIn:** linkedin.com/in/aryeh-harris | **Stackoverflow:** stackoverflow.com/story/aryeh-harris

## TECHNOLOGIES

---

**Proficient:** Javascript ES5 & ES6, Node, React, Redux, Express, Sequelize, PostgreSQL, Git / Github, Regex

**Knowledgeable:** HTML5, CSS3, Bash, Bootstrap, Web Sockets / Socket.io, Heroku, jQuery, Python

**Interested In:** Machine Learning, VR / AR, Self-Driving Cars, Quantum Computing

## Projects

---

### 3D Tron | Developer

Feb. 2017

*Multiplayer game where players compete to be the last rider standing in a 3D arena*

**Github:** github.com/harrytttd/3D\_Tron / **Site:** tron-3d.herokuapp.com | **Presentation:**youtu.be/YEaShoQSwHq

- Led multiplayer synchronization by building web sockets and React + Redux frameworks for 3D rendering.
- Implemented object model graphics including bike models and field-of-play.
- Managed team efforts by ensuring team members kept to daily plans and organized Git branches.
- Technologies: Javascript, Node, React, Redux, Socket.io, Whitestorm.js, Three.js, Git

### Matchmaker | Sole Developer

Jan. 2017

*Application that assists matchmakers in making compatible matches*

**Github:** github.com/harrytttd/matchmaker | **Site:** matchmakerjs.herokuapp.com | **Presentation:**youtu.be/vFXnhWnJ4

- Stores single's profiles in a clean and organized way and suggests matches based on criteria like common interests.
- Created and deployed using agile development techniques over a four-day hackathon.
- Technologies: Javascript, Node, React, Redux, Express, Bootstrap, Regex, Lodash, OAuth, Git

### Online Bling | Developer

Jan. 2017

*E-commerce website built as part of a team of four over the course of one week*

**Github:** github.com/harrytttd/online-bling / **Site:** online-bling.herokuapp.com

- Built cart and product components of the website, including database models, routes, and front end elements.
- Wrote over 30 out of 100 tests in Mocha, Chai, and Enzyme for both front and back end components.
- Technologies: Javascript, Node, React, Redux, Express, Sequelize, PostgreSQL, Bootstrap, OAuth, Git

### Regex in Javascript | Tech Talk

Jan. 2017

**Presentation:**youtu.be/VR9WUuqvBus

- Taught Regex – a special text string for describing a search pattern – to students and instructors at Fullstack Academy during a 12-minute presentation.
- Focused on the fundamentals and practical coding usage of the technology in modern Javascript software practices.

## EXPERIENCE

---

### Probstein123 | Office Administrator / Data Entry | Passaic, NJ

Apr. 2014 – Sep. 2015

*Top ranked eBay sports memorabilia consignment dealer | Site: ebay.com/usr/probstein123*
